9.3 A notice sent by registered post or recorded delivery is to be treated as having been served on the third working day after posting whether it is received or not.

ASBESTOS MANAGEMENT

The Tenant must inform the Parish Council immediately of any suspected Asbestos found on any plots. The Parish Council will keep an Asbestos register. We will arrange for a qualified inspection to determine the type of asbestos. The results of this will determine how it is managed. If it is not damaged, not causing a hazard it can be left alone, but must not be disturbed, drilled or worked upon. A sticker will be placed near it to warn every one of the dangers. The only asbestos that can be disposed of by Tenants (or non-specialised contractors on behalf of the Tenant) is concrete asbestos, which can be put in the bags provided by the Allotment Association. This must be handled and transported as detailed in our guidance document which can be obtained from the Council.

PUBLIC LIABILITY

The Council will not be held responsible for loss by accident, fire or theft or damage to or from allotment gardens. The Council will seek compensation for any damage caused by any means by a Tenant to the external perimeter fence. Compensation for any damage to the contents of other allotment gardens or to property outside the Allotment Site will have to be settled between the injured party and the tenant responsible for the damage. The incident may have a bearing on the tenancy of the person responsible.

LONE WORKING

If you choose to work on the Allotment site alone, you may do so at your own risk.
